I, Mr. Sasi Kumar Chandrasekaran, Practice Manager – Managed Application Services, Sirius computer solutions a CDW company, Chennai, Tamilnadu, would like to write this recommendation for one of my colleagues, **Mr. Sharon Kenneth John**, whom I have worked with for the last one a year. I have mentored and witnessed his progress from his nascent stage of being an Intern to blooming into his refined state as an efficient Consultant trainee at our company. Thus, he has immaculate grit and a diligent approach as a professional.

Moreover, Mr. Sharon Kenneth John working under my supervision for two projects. Thus, in my short association with him, I have had the opportunity to observe him in close proximity and gauge his technical caliber. Hence, his curious nature has made him self-explore and initiate personal experiments to unfold and self-learn technological advancements. Consequently, he never shied away from taking responsibility for the projects which would easily overwhelm a fresher. Therefore, I highly appreciate his integrity and honesty in pushing his comfort zone and meeting the complex duties of O365 domains.

Furthermore, Mr. Sharon Kenneth John was a newcomer to the professional scenario, but his passion for Client service administration, Data Security, Product Life Cycle Management, and other extended fields has made him set a new benchmark for his peers and juniors. Additionally, I would like to mention that during his association with our company, his time management, interpersonal, critical thinking, and analytical skills have made him stand out and exceed my expectations as his Practice Manager.
